## Dear parents and families,

the team at the counseling center for parents, children and adolescents in Ahlen is there for **all parents**, who have questions or concerns about everyday life as a family.

We are here to support you

- when you have questions about the development and education of your children
- with regard to problems your child might face in kindergarden or at school, at home or in their spare time
- solving conflicts within your family
- in dealing with distressing experiences you or your children may have had (e.g. experiences of war and/or having fled your country).

In addition to counseling for parents, we also offer counseling and therapy for children, teenagers and young adults.

Everything we offer is free of charge. All families are welcome regardless of their cultural, religious or ethnic background.

By law, we are bound by professional discretion. All conversations between you and our team are therefore confidential. We will not inform anybody outside of our organization about anyone receiving counseling without your permission.

**If necessary, we can arrange for a translator to be present.**

**Please let us know if one is needed!**
